Abstracts

Pakistan banking market outlook report from OGANALYSIS provides comprehensive analysis, trends, drivers and challenges of operating or expanding into the market.

The uniqueness of the report lies in profitability analysis and comparison with peer markets among others. Profitability analysis is made along 4 key pillars including key metrics, risk factors, productivity and asset usage efficiency. More than 20 key ratios are analyzed and incorporated in the premium research work. Further, interviews with industry experts strengthen the research and analysis on Pakistan commercial banking report. Incorporating buyers' suggestions and feedback, the 2016 Q3 version is more improved and user friendly.

Banking industry in Pakistan witnessed a (surge) in total assets at 13,048 Pakistan Rupee in Billions as of 2015, with a large portion of this coming from deposits. Over the forecast period, policy changes initiated by central bank of Pakistan, NPA handling, Base norms (CRAR) and growth in other financial markets will be the key factors for profitability and future strategies of banks including overseas expansion of banks. Further, financial inclusion, economic growth (GDP and GDP Per Capita) will also play a key role in shaping the future of Pakistan commercial banking sector.

The research work also provides detailed market structure based on size, profitability, deposits and loans of leading banks in the country. In addition, detailed SWOT and financial analysis of five leading banks is included. Recent developments and transactions in the industry are also analyzed in the Pakistan report.
