Abstracts

Guatemala oil and gas market is experiencing major changes in new project development, consumption patterns and market scenario amidst rapidly shifting global dynamics. Declining US shale production, Iran sanction lift, Saudi Arabia plans to expand market share, LNG planned projects, lower than anticipated Chinese demand are all expected to significantly impact the refiners, LNG and storage operators, upstream and downstream companies. Accordingly, oil and gas companies in the country are altering their strategies to cop up with the changes in global markets.

The Guatemala oil and gas report from OG Analysis provides complete analysis and forecasts of Guatemala upstream, downstream and midstream sectors. The research work provides analysis of key opportunities and associated challenges facing Guatemala markets. Yearly production and consumption forecasts of oil, gas, LNG, LPG, gasoline, diesel and fuel oil from 2005 to 2025 are included in the report. Further, primary energy demand, GDP, population and vehicle production details are provided from 2005- 2025.

All potential new business and investment opportunities in Guatemala oil and gas markets with feasibility of planned projects, expected start up, investments required are included. Further, asset wise details of oil fields, gas fields, exploration blocks, LNG terminals, storage, pipeline and refineries operational in the country are analyzed.

Guatemala Infrastructure, market conditions, investment climate and competitive landscape are analyzed through sophisticated tools and presented in user friendly

manner through SWOT analysis, benchmarking and positioning matrix.

The report also details the business profiles of three key companies in Guatemala oil and gas industry. Business operations, SWOT Analysis and financial performance of the companies are provided. All latest developments in Guatemala oil and gas industry and their impact on the industry are included in the report.

Some of the Key issues answered by the report include
