The research report covers Mezcal industry statistics including current Mezcal Market size, Mezcal Market Share, and Growth Rates (CAGR) by segments and sub-segments at global, regional, and country levels, with an annual forecast till 2029.

The study provides a clear insight into market penetration by different types, applications, and sales channels of Mezcal with corresponding future potential, validated by real-time industry experts. Further, Mezcal market share by key metrics such as manufacturing methods/technology and raw material can be included as part of customization. This enables the client to identify the most potential segment from their growth rates along with corresponding drivers and restraints.

The research considered 2017, 2018, 2019, and 2020 as historical years, 2021 as the base year, and 2022 as the estimated year, with an outlook period from 2023 to 2029. The report identifies the most profitable products of Mezcal market, dominant end uses and evolving distribution channel of the Mezcal Market in each region.

Future of Mezcal Market –Driving Factors and Hindering Challenges

Mezcal Market Revenue is expected to grow at a healthy CAGR propelled by staggering demand from millennials and emerging markets. Technological advances in the Mezcal market enabling efficient production, expanding product portfolio, sophisticated design and packaging, effective operational maintenance, and sales monitoring are key growth drivers.

However, complying with stringent regulations and varying standards around the world, growing competition, inflation estimated to remain above the upper band during the short term in key nations, and fluctuating raw material prices are some of the Mezcal market restraints over the forecast period.

Overarching trends induced by the novel Corona and Omicron conditions include

- Increased spending on functional and Healthy foods that help boost the immune system

- Orientation toward clean label and vegan products lead to burgeoning sales of plant-based snacks, spreads, dips, creamers, sauces, cheese, and other food and beverages

- Companies are increasingly implementing blockchain and other Internet of Things (IoT) technologies to effectively manage the procurement, processing, and distribution of Mezcal products

- Organic, Vegan, bio-based, Canned/ Ready-to-Eat (RTE), clean label, and sustainable are identified as the top-selling proportions owing to increasing health, ingredient and environmental consciousness, amid prevailing health emergency

- Mergers and acquisitions to acquire new technologies, strengthen portfolios, and leverage capabilities to remain key strategies of top companies in the Mezcal industry over the outlook period.
