Abstracts

Paraffins market report – 9th edition focuses on Critical factors for success, market size and forecast growth rates, industry structure and dynamics, key companies, products and functions and trends and strategic issues.

Between 2013 and 2018, Profitability of companies fluctuated significantly with regional market volatility, supply chain management and more predominantly, shifting end user industry demand patterns. Huge investment is being made annually on Paraffins production to meet future demand growth. However, the need for understanding local dynamics and investing in right product portfolio has become intense for sustained profitability.

The report assists Paraffins industry market leaders to prioritize investment decisions, optimize product portfolio and develop successful business strategies. The research report presents 7-year outlooks and extensive market data on individual types, applications and geographies. For market size outlook, an in-depth analysis into supply, demand, pricing and trade has been considered to ensure most reliable forecasts.

Paraffins market report provides an in-depth analysis and outlook of market types, end-user applications and countries. With new growth opportunities emerging in different pockets of the industry, companies quickly identifying these opportunities and modifying their products will gain market shares over the forecast period to 2025.

The report also presents the company profiles of leading five market participants in Paraffins industry. Detailed business description, SWOT analysis, products and financial analysis are provided for each of the company.

Further, recent market developments, deals including asset purchases, mergers, acquisitions, business expansions and others are included.
