2024 Poultry Market Research Report: Navigating Trends, Developments, Competition, Growth Opportunities, and Outlook to 2031

The Global Poultry Market Research Report is a comprehensive and insightful analysis designed to assist stakeholders, industry professionals, and decision-makers in identifying Poultry market potential and winning strategies for 2024. The report evaluates key developments in 2023 and analyses growth opportunities in the Poultry Market over the next eight years, with precise annual forecasts to 2031.

The dynamic shifts induced by international conflicts affecting the Poultry supply chain, and fluctuations in consumer purchasing power amidst volatile economic conditions, underscore the imperative for business entities to exercise heightened vigilance and forward-thinking strategies to sustain a competitive advantage. The economic and social impact is noted to be highly varying between different countries/markets and Poultry market players are designing country-specific strategies.

### **Poultry Market Segmentation and Growth Outlook**

The research report covers Poultry industry statistics including current Poultry Market size, Poultry Market Share, and Growth Rates (CAGR) by segments and sub-segments at global, regional, and country levels, with an annual forecast till 2031.

The study provides a clear insight into market penetration by different types, applications, and sales channels of Poultry with corresponding future potential,

validated by real-time industry experts. Further, Poultry market share by key metrics such as manufacturing methods/technology and raw material can be included as part of customization. This enables the client to identify the most potential segment from their growth rates along with corresponding drivers and restraints.

The research considered 2019, 2020, 2021, and 2022 as historical years, 2023 as the base year, and 2024 as the estimated year, with an outlook period from 2025 to 2031. The report identifies the most profitable products of the Poultry market, dominant end uses, and evolving distribution channels of the Poultry Market in each region.

### Future of Poultry Market –Driving Factors and Hindering Challenges

Poultry Market Revenue is expected to grow at a healthy CAGR propelled by staggering demand from millennials and emerging markets. Technological advances in the Poultry market enabling efficient production, expanding product portfolio, sophisticated design and packaging, effective operational maintenance, and sales monitoring are key growth drivers.

However, supply chain disruptions, complying with stringent regulations on food safety and labeling, growing competition, sustaining inflation in key markets, and fluctuating raw material prices surging input costs are some of the Poultry market restraints over the forecast period.

Overarching trends in the food and beverage industry include

The exponential growth of plant-based alternatives continues to disrupt traditional markets, fuelled by increasing consumer awareness of health and environmental concerns

The accelerated adoption of online platforms for Poultry purchases is reshaping distribution channels and customer engagement

Sustainable packaging solutions and innovations in materials are becoming pivotal as the industry addresses environmental concerns

Increased spending on functional and Healthy foods that help boost the immune system

Companies are increasingly implementing blockchain and other Internet of Things (IoT) technologies to effectively manage the procurement, processing, and distribution of Poultry products

Organic, Vegan, bio-based, Canned/ Ready-to-Eat (RTE), clean label, and sustainable are identified as the top-performing strategies

Mergers and acquisitions to acquire new technologies, strengthen portfolios, and leverage capabilities to remain key strategies of top companies in the Poultry industry over the outlook period.

### Poultry Market Analytics

The research analyses various direct and indirect forces that can potentially impact the Poultry market supply and demand conditions. The parent market, derived market, intermediaries' market, raw material market, and substitute market are evaluated. Geopolitical analysis, demographic analysis, and Porter's five forces analysis are prudently assessed to estimate the best Poultry market projections.
