Abstracts

The global Prepared Rehmannia Extract Market size is valued at USD 623.7 million in 2024 and is projected to reach USD 961.5 million by 2032, registering a compound annual growth rate (CAGR) of 5.56% over the forecast period.

The prepared rehmannia extract market is witnessing niche growth driven by its traditional use in Chinese medicine for nourishing yin, blood tonics, and anti-aging applications. Prepared rehmannia (*Rehmannia glutinosa*) extracts are processed to enhance tonifying effects, containing iridoid glycosides such as catalpol and rehmanniosides used in herbal formulations for anaemia, menopause, and adrenal fatigue. Manufacturers are focusing on traditional preparation-compliant extracts, high-purity iridoid standardisation, and water-soluble powdered forms for supplements. Growth is supported by rising demand for traditional adaptogenic herbs, expansion of Kampo formulations incorporating rehmannia, and increasing interest in natural anti-aging supplements. Challenges include limited global consumer awareness, regulatory barriers for therapeutic claims, and raw material supply constraints. Recent developments include Xi'an Greena Biotech launching catalpol-standardised rehmannia extracts, Tsumura enhancing Kampo tonics with prepared rehmannia, and Shaanxi Jiahe introducing water-soluble rehmannia powders for supplements.

Major trends include development of catalpol-standardised prepared rehmannia extracts for blood tonics, anti-aging, and adaptogen supplements.

Drivers are rising use of traditional adaptogenic herbs, integration in Kampo and

Chinese tonics, and demand for natural anti-aging products.

Challenges include limited global consumer awareness, raw material supply limitations, and regulatory approvals for therapeutic claims.

Companies focus on enhancing iridoid glycoside extraction purity, developing water-soluble powdered forms, and maintaining traditional preparation standards for efficacy.

Recent developments include Xi'an Greena launching catalpol-standardised extracts, Tsumura enhancing Kampo tonics, and Shaanxi Jiahe introducing soluble rehmannia powders.
