## **Abstracts**

In Australia, 3G migration is continuing at pace, with mobile broadband and smartphones driving competition and industry growth. Indeed, 3G connections comprised 58% of Australian mobile market connections in December 2009. In this report, Nathan Burley discusses the development of the 3G mobile market in Australia, and operator strategies.

## Contents

Executive summary  
In a nutshell  
Ovum view  
3G market development scenario: 2010–15  
3G market development: 2010–15  
3G market overview  
3G continues to go from strength to strength  
Market shares and connection figures  
Connections moving to 3G  
Network connection market share  
Revenue market share  
3G helps shift revenues to data  
EBITDA market shares  
3G net additions and connection market shares  
Technology and networks  
Rapid traffic growth drives capacity requirements  
Roadmap for LTE in Australia  
LTE following analogue TV switch off in Australia  
LTE in 2.5GHz in Australia  
LTE in other existing spectrum allocations in Australia  
LTE trials by Australian operators  
Telstra potentially excluded from digital dividend and 2.5GHz spectrum  
LTE will provide further momentum to wireless broadband substitution  
HSPA will continue to support growth prior to LTE  
Telstra leads the way on HSPA  
Coverage drives network expansion at Optus and VHA  
Advantages of different frequency bands  
Network-sharing becomes less important  
VHA merger creates network complexity  
Femtocells likely to appear in the Australian market  
Impact of wireless on the NBN business case  
Wireless will generate revenues for NBN  
Wireless will steal revenues away from NBN  
3G operator strategies  
Telstra: still in the ascendancy but premium falling  
Optus: challenging again  
VHA: continued momentum post merger

## List Of Figures

### LIST OF FIGURES

Figure 1: Australia mobile connections by technology

Figure 2: Total network connection market shares by operator in Australia

Figure 3: Half-yearly changes in mobile service revenue market share in Australia by operator

Figure 4: Operator half-yearly mobile service revenues in Australia

Figure 5: Market share of mobile market EBITDA by operator

Figure 6: 3G connection net additions and 3G connection market shares by operator in Australia

Figure 7: Potential access networks with LTE at Telstra

## I would like to order
