Abstracts

As mobile services in Indian urban markets are reaching saturation, rural markets are becoming an important frontier for industry growth. However, due to low ARPU and the higher cost of providing services in rural areas, operators face the challenging task of serving these areas profitably. This report discusses the opportunities and challenges of rural markets, and effective strategies to serve these markets successfully.

Contents

EXECUTIVE SUMMARY

IN A NUTSHELL

KEY MESSAGES

LOW TELEDENSITY AND STRONG SOCIO-ECONOMIC DEVELOPMENT

THE ADDRESSABLE MARKET IS NOT HUGE IN THE SHORT TO MEDIUM TERM
