Abstracts

Some of the biggest challenges ever to face regulators and policy-makers will take place in the next decade. The decisions taken will affect the competitive landscape for many years to come as operators make significant investments and seek regulatory clarity. Engagement with all stakeholders will continue be crucial to the success of well-designed regulatory policy. The challenge will be in making sure this takes place even where regulators may lack resources or be constrained by a lack of independence.

Contents

Executive summary

In a nutshell

Scope

Ovum view

Key messages
