Abstracts

Small business requirements include access to a host of managed, cloud-based services including productivity apps, backup and storage, remote access, and technical support. By offering sophisticated services via a cloud model, service providers can offer SMBs flexible, cost-effective solutions. This report profiles the needs of SMBs as well as available cloud solutions, charting a path to growth opportunities for broadband providers and other third-party suppliers. The report includes a five-year forecast for the growth of cloud services for SMBs.
