Date: March 2018

Pages: 29

Price: US\$ 3,500.00 (Single User License)

ID: H7D00A3F050EN

Abstracts

The home security market continues to evolve, and interactive services give dealers additional value propositions. However, competitive pressure is intensifying from standalone device options, self-installed security systems, and market saturation at the dealer level. This report leverages findings from a Parks Associates survey of residential security dealers, as well as briefings with industry executives, to share the view of the market from those on the front lines.
