Global Prefilled Syringes Market Report Description:

Prefilled syringes market report gives comprehensive outlook on prefilled syringes across the globe with special emphasis on key regions such as North America, Europe, Asia-Pacific, Latin America, and Middle East & Africa (MEA). The report on prefilled syringes market gives historical, current, and future market sizes (US\$ Mn) on the basis of material type, prefilled syringes type, design, end user, and geographic regions. This report studies prefilled syringes market dynamics elaborately to identify the current trends & drivers, future opportunities and possible challenges to the key stakeholders operating in the market. In addition, prefilled syringes market report includes new product introduction, regulatory scenario, and competition analysis with vividly illustrated the competition dashboard to assess the market competition. Moreover, PBI analyzed prefilled syringes market to better equip clients with possible investment opportunities

across the regions (Regional Investment Hot-Spots) and market unmet needs (Product Opportunities). Key stakeholders of the prefilled syringes market report include suppliers, manufacturers, marketers, policy makers engaged in manufacturing and supply of prefilled syringes.

#### Prefilled Syringes Market:

The prefilled syringes market estimated to be valued US\$ 4,385 Mn in 2016 and poised to grow at CAGR 8.8%. Market for prefilled syringes projected to reach US\$ 7,276 Mn by 2023.

#### Rise in biologic drug approvals and pipeline

Increasing adoption prefilled syringes format for parenteral drug administration, rising biologic product approvals, increased product availability in PFS format for home based healthcare, and safety associated with prefilled syringes driving market revenue growth of prefilled syringes market over the forecast period. Moreover, inherited benefits such as dose accuracy, convenience in usage, sterility and advantages over conventional drug delivery are the factors driving the prefilled syringes market revenue growth.

#### Availability of alternate drug administration methods

Pharmaceutical and biopharmaceutical companies yet to exploit the full potential of prefilled syringes formats for drug administration and this non adoption of PFS formats can be attributes to the availability of other alternative drug administration methods. In addition, lower penetration of PFS in developing economies hindering market revenues growth over forecast period. Currently majority of PFS are designed to compatible with biologic drugs than non-biologic drugs.

#### Europe accounts for larger market revenue share in global prefilled syringes market

Europe expected to lead the global prefilled syringes market in terms of revenue in over forecast period. Regions such as Asia Pacific and North America presented better growth opportunities for the market players owing to rise in prevalence of chronic diseases and availability of large untapped market.

## COMPETITION ASSESSMENT

Key players profiles in the global prefilled syringes market include:

*Global Prefilled Syringes Market: By Material Type (Plastic Prefilled Syringes and Glass Prefilled Syringes),...*

Becton, Dickinson and Company (U.S.)

Catalent, Inc. (U.S.)

Gerresheimer (Germany)

Haselmeier (Switzerland)

MedPro Inc. (U.S.)

Nipro Corporation (Japan)

Ompi (Italy)

Owen Mumford (UK)

SCHOTT AG (Germany)

Terumo Medical Corporation (Japan)

Unilife Corporation (U.S.)

Vetter Pharma International GmbH (Germany)

Weigao Group (China)

West Pharmaceutical Services, Inc. (U.S.)

Ypsomed Holding AG (Switzerland)

Market players are focusing on launching innovative and customized prefilled syringes to maintain market position in global prefilled syringes market. Moreover, players are entering into strategic agreement with pharmaceutical and biopharmaceutical companies to improve revenue prospects.

## **KEY FINDINGS OF THE REPORT:**

Prefilled Syringes market expanding at 8.8% CAGR over 2017 to

2023 to reach market value of US\$ 7,276 Mn by 2023 owing increased adoption in home-based healthcare market

Based on material type glass based prefilled syringes accounted for larger market share in 2016 owing to compatibility with several drug molecules

Biopharmaceutical companies are major buyers for global prefilled syringes market owing to availability of wider biologic drugs in PFS format

Players focusing on introducing novel prefilled syringes to garner market global market opportunities

## **KEY FEATURES OF THE REPORT:**

The report provides granular level information about the market size, regional market share, historic market (2012-2016) and forecast (2017-2023)

The report covers in-detail insights about the competitor's overview, company share analysis, key market developments, and their key strategies

The report outlines drivers, restraints, unmet needs, and trends that are currently affecting the market

The report tracks recent innovations, key developments and startup's details that are actively working in the market

The report provides plethora of information about market entry strategies, regulatory framework and reimbursement scenario

The report analyses the impact of socio-political environment through PESTLE Analysis and competition through Porter's Five Force Analysis in addition to recent technology advancements and innovations in the market

## **DETAILED SEGMENTATION**
