## Abstracts

The report provides in-depth information on:

**Country Landscape** – This section covers information on the prevailing economic environment in the country and dwells on both macro and micro economic indicators. The demographic profile of the country highlights the growing importance of middle class and increasing access to internet. It also captures the political landscape along with the opportunities and challenges presented by the country.

**Healthcare infrastructure** – Insightful review of the country's healthcare system and health status with key health indicators are presented in this section. Moreover, healthcare expenditure and share of public and private sectors are prominently discussed in the section. The profiles of major hospitals and the number of healthcare personnel in the country are also comprehensively covered.

**Overview of Pharmaceutical Market** – This section depicts the pharmaceutical market in terms of size, growth, product mix and key players operating in the country. A special emphasis has been laid on the key drivers and barriers impacting the pharmaceutical market of the country. Furthermore, the profiles of major diseases with high burden for the country have been covered.

**Market Access:** This section dwells on the role and importance of various stakeholders in product commercialization process and gatekeepers holding the key to the access for pharmaceutical products. Various regulatory aspects crucial for approval and marketing of various categories of pharmaceutical products have been captured comprehensively. In addition, detailed analysis of pricing and reimbursement landscape along with the prescribing policies and

influence, price build-up and trends and various drug lists impacting reimbursement is covered.

Data-rich tables and figures have been used generously to augment the report and assist the reader in better understanding of the subject matter.

## Contents
