Abstracts

The global application processor market is expected to grow at a CAGR of around 4.5% during 2023-2030. This report on global application processor market report provides holistic understanding of the market along with market sizing, forecast, drivers, challenges, and competitive landscape. The report presents a clear picture of the global application processor market by segmenting the market based on device type, core type, and region. Also, detailed profiles of companies operating in the application processor market are provided in this report. We believe that this report will aid the professionals and industry stakeholders in making informed decision.

Market Drivers

Growing Use in Automotive ADAS and Infotainment Systems

Technological Advancements and Innovations

Increasing Tech-Savvy Consumers

Market Challenges

Intense Market Competition

Smaller Lifecycle of Consumer Electronics
