Abstracts

The global space launch services market is expected to grow at a CAGR of around 13.7% during 2023-2030. This report on global space launch services market report provides holistic understanding of the market along with market sizing, forecast, drivers, challenges, and competitive landscape. The report presents a clear picture of the global space launch services Market by segmenting the market based on pay load, launch platform, launch vehicle, orbit type, service type, end user, and region. Also, detailed profiles of companies operating in the space launch services Market are provided in this report. We believe that this report will aid the professionals and industry stakeholders in making informed decision.

Market Drivers

Increasing Deployment of Small Satellites.

Large-Scale Investments by Private Firms in Space Exploration Missions

Market Challenges

Shortage of Skilled Workforce

High Cost
