Abstracts

The global surgical sutures market is expected to grow at a CAGR of around 5.5% during 2023-2030. This report on global surgical sutures market report provides holistic understanding of the market along with market sizing, forecast, drivers, challenges, and competitive landscape. The report presents a clear picture of the global surgical sutures market by segmenting the market based on type, material, coating, application, end user, and region. Also, detailed profiles of companies operating in the surgical sutures market are provided in this report. We believe that this report will aid the professionals and industry stakeholders in making informed decision.

Market Drivers

Growing Number of Individuals Undergoing Surgical Procedures

Rising Prevalence of Chronic Diseases

Increasing Geriatric Population

Market Challenges

Presence of Alternative Wound Care Management Products
