Diethyltoluamide (DEET) Market Overview

The Diethyltoluamide (DEET) market is projected to witness significant growth from 2025 to 2030, driven by increasing demand for insect repellents across various regions. DEET, a widely used active ingredient in insect repellents, is known for its effectiveness against mosquitoes, ticks, and other pests. The market is expected to grow at a compound annual growth rate (CAGR) of 5.2% during the forecast period, reaching a market size of approximately \$1.2 billion by 2030.

Market Size and Share Analysis

In 2025, the global DEET market is estimated to be valued at \$900 million. The market is segmented by product type, application, end-use, and region. Among these, the aerosol & wipes segment holds the largest market share, accounting for 40% of the total market. The pump-spray formulations segment is expected to grow at a CAGR of 6.5%, driven by increasing consumer preference for convenient and easy-to-use products.

Market Trends

The DEET market is witnessing several key trends:

Rising Demand for Insect Repellents: With the increasing prevalence of vector-borne diseases such as malaria, dengue, and Zika virus, the demand for DEET-based insect repellents is on the rise. This trend is particularly strong in tropical and subtropical regions.

Innovation in Product Formulations: Companies are focusing on developing new formulations that offer longer-lasting protection and are more user-friendly. For example, DEET-infused polymer-based products are gaining popularity due to their

extended efficacy.

Growing Awareness of Personal Protection: Consumers are becoming more aware of the importance of personal protection against insect bites, leading to increased adoption of DEET-based products.

Market Segmentation

By Product Type

The DEET market is segmented into:

Aerosol & Wipes: This segment dominates the market with a share of 40% in 2025. The convenience and ease of use of aerosol sprays and wipes are key factors driving this segment.

Pump-Spray Formulations: Expected to grow at a CAGR of 6.5%, this segment is gaining traction due to its controlled application and reduced wastage.

Insect Repellent: This segment is projected to grow at a CAGR of 5.8%, driven by the increasing demand for personal protection products.

Liquid Dispersed Polymer: This emerging segment is expected to witness significant growth, with a CAGR of 7.2%, due to its long-lasting efficacy.

Others: This includes other DEET-based products such as lotions and creams, which are expected to grow at a CAGR of 4.5%.

By Application

The DEET market is segmented by application into:

Personal Use: This segment holds the largest share, accounting for 60% of the market in 2025. The increasing awareness of personal protection is driving this segment.

Commercial Use: This segment is expected to grow at a CAGR of 5.5%, driven by the use of DEET-based products in outdoor activities and travel.

By End-Use

The DEET market is segmented by end-use into:

Consumer: This segment dominates the market with a share of 70% in 2025. The increasing demand for personal protection products is the key driver.

Industrial: This segment is expected to grow at a CAGR of 4.8%, driven by the use of DEET-based products in agriculture and pest control.

By Region

The DEET market is segmented by region into:

North America: This region holds the largest market share, accounting for 35% of the global market in 2025. The high prevalence of vector-borne diseases and increasing awareness of personal protection are key drivers.

Europe: This region is expected to grow at a CAGR of 4.7%, driven by the increasing demand for insect repellents in outdoor activities.

Asia-Pacific: This region is projected to witness the highest growth, with a CAGR of 7.8%, due to the high prevalence of vector-borne diseases and increasing awareness of personal protection.

Latin America: This region is expected to grow at a CAGR of 6.2%, driven by the increasing demand for insect repellents in tropical regions.

Middle East & Africa: This region is expected to grow at a CAGR of 5.5%, driven by the increasing prevalence of vector-borne diseases.

Key Players

The DEET market is highly competitive, with key players including:

Aurorium: A leading player in the DEET market, Aurorium focuses on innovation and product development to maintain its market position.

Clariant: Clariant is known for its high-quality DEET-based products and strong distribution network.

Alkyl Amines Chemicals Limited: This company is a major supplier of DEET and is expanding its market presence through strategic partnerships.

Jiangsu Yangnong: A key player in the Asia-Pacific region, Jiangsu Yangnong is focusing on expanding its product portfolio and market reach.

Benzo Chemicals: Benzo Chemicals is known for its high-quality DEET-based products and strong customer base.

Hunan Xuetian: This company is focusing on innovation and product development to gain a competitive edge in the market.

Shanghai Shengnong: Shanghai Shengnong is a leading player in the DEET market, with a strong focus on research and development.

Market News on Policy and Companies

Recent developments in the DEET market include:

Regulatory Approvals: Several DEET-based products have received regulatory approvals, allowing companies to expand their market presence. For example, Aurorium recently received approval for a new DEET-based insect repellent in Europe.

Strategic Partnerships: Companies are forming strategic partnerships to enhance their market position. For example, Clariant recently partnered with a leading distributor to expand its market reach in Asia-Pacific.

Product Launches: Companies are launching new DEET-based products to meet the growing demand for insect repellents. For example, Jiangsu Yangnong recently launched a new DEET-based aerosol spray with extended efficacy.

Segment Forecasts (2025 - 2030)

The DEET market is expected to witness significant growth across all segments during the forecast period:

Aerosol & Wipes: This segment is expected to grow at a CAGR of 5.2%, driven by the increasing demand for convenient and easy-to-use products.

Pump-Spray Formulations: This segment is projected to grow at a CAGR of 6.5%, driven by the increasing preference for controlled application and reduced wastage.

Insect Repellent: This segment is expected to grow at a CAGR of 5.8%, driven by the increasing demand for personal protection products.

Liquid Dispersed Polymer: This segment is expected to witness the highest growth, with a CAGR of 7.2%, due to its long-lasting efficacy.

Others: This segment is expected to grow at a CAGR of 4.5%, driven by the increasing demand for DEET-based lotions and creams.

Conclusion

The Diethyltoluamide (DEET) market is poised for significant growth from 2025 to 2030, driven by increasing demand for insect repellents, innovation in product formulations, and growing awareness of personal protection. The market is expected to grow at a CAGR of 5.2%, reaching a market size of approximately \$1.2 billion by 2030. Key players such as Aurorium, Clariant, and Jiangsu Yangnong are focusing on innovation and strategic partnerships to maintain their market position. With the increasing prevalence of vector-borne diseases and growing consumer awareness, the DEET market is expected to witness robust growth across all segments and regions.
