Abstracts

The development in the international trade flow and recent economic environment have largely impacted the cargo shipping market in a positive aspect. Further, increasing intra-regional trade in the emerging economies has propelled the growth of the market. Moreover, increasing number of regions that forge free trade agreements are anticipated to boost the cargo shipping industry. The global cargo shipping market is expected to grow at a CAGR of around 4% from 2017 to 2025.

The global cargo shipping market is segmented on the basis of cargo type, industry vertical, and geography. Container, general, and bulk cargo are the cargo types in the cargo shipping market. The industry verticals analyzed in the study are oil & ores, food & manufacturing, and electrical & electronics. Geographically, the market is segmented into North America, Europe, Asia-Pacific, and LAMEA, followed by country-level analysis.
