## Abstracts

This report attempts to calculate the growth and evolution of the Indonesian wealth management market by clearly demonstrating the growth of UHNWI in specific cities in Indonesia, the strategies used by banks to capture UHNWIs and HNWIs' wallet shares, and most importantly, it illustrates the changes in UHNWIs and HNWIs' demands and attitudes towards investing.

In this report you will find opportunities in the most current data available, understand competitive threats with our detailed market analyses, and plan your corporate strategy with our expert qualitative evaluations and growth projections.

This report will give the reader strategic intelligence about the most competitive players in the Indonesian wealth management banking industry. It will also allow the reader to fully understand key industry trends, opportunities, and problems within the Indonesian wealth management market.
