## Abstracts

Recloser is a self-controlled device, which guards a power system against service interrupts by automatically opening and closing as short circuits are detected. In other words, it is a switch that re-establishes an electrical circuit manually, remotely, or automatically after a disruption of service.

The vacuum reclosers are the most important reclosers that distinguish from SF6 reclosers. On the basis of phase, the vacuum reclosers can be segmented into single phase vacuum reclosers, two phase vacuum reclosers, three phase vacuum reclosers, and triple single vacuum reclosers. The three phase recloser segment dominated the global recloser market. And on the basis of control, the vacuum reclosers can be segmented into electrically controlled vacuum reclosers and hydraulically controlled vacuum reclosers. The electrically controlled segment contributed the higher share to the global recloser market, as these types of vacuum reclosers are more accurate than the hydraulically controlled ones. To the hydraulically controlled vacuum reclosers, Cooper Industries (Eaton Corporation) is the only major manufacturer of the hydraulic vacuum reclosers globally.

The global reclosers market size was \$780 million in 2014, and it is projected to reach \$980 million in 2020.

The key players include ABB, Schneider Electric, NOJA Power, Siemens, GE, Eaton (Cooper), G&W Electric, Tavrada Electric, S&C Electric, Hubbell Power Systems, Jin Kwang E&C, Xuji Electric, Sunrise Electric, Tianan Electric, Yangzhou Keyu Electricity and DAJAN Holding Group.

The report provides a basic overview of the industry including definitions, classifications, applications and industry chain structure. The Vacuum Reclosers market analysis is provided for the China markets including development trends, competitive landscape

analysis, and key regions development status.

Development policies and plans are discussed as well as manufacturing processes and Bill of Materials cost structures are also analyzed. This report also states import/export consumption, supply and demand Figures, cost, price, revenue and gross margins.
