Abstracts

Aircraft insurance, also called aviation insurance is financial protection designed to cover the risks associated with operating aircraft and aviation. As the aviation industry has hazards that are not common with other methods of transport, a specific type of liability insurance is required to cover these unique risks. These risks can involve the maintenance and use of aircraft, property damage, loss of cargo, or injury to people. Aviation insurance protects both its owners and aircraft operators from unforeseen losses.

Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the Aircraft Insurance market in 2020.

COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.

The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among the population, and uncertainty about future.

This report also analyses the impact of Coronavirus COVID-19 on the Aircraft Insurance industry.

Based on our recent survey, we have several different scenarios about the Aircraft Insurance YoY growth rate for 2020. The probable scenario is expected to grow by a xx% in 2020 and the revenue will be xx in 2020 from US\$ xx million in 2019. The market size of Aircraft Insurance will reach xx in 2026, with a CAGR of xx% from 2020 to 2026.

With industry-standard accuracy in analysis and high data integrity, the report makes a brilliant attempt to unveil key opportunities available in the global Aircraft Insurance market to help players in achieving a strong market position. Buyers of the report can access verified and reliable market forecasts, including those for the overall size of the global Aircraft Insurance market in terms of revenue. Players, stakeholders, and other participants in the global Aircraft Insurance market will be able to gain the upper hand as they use the report as a powerful resource. For this version of the report, the segmental analysis focuses on revenue and forecast by each application segment in terms of revenue and forecast by each type segment in terms of revenue for the period 2015-2026.

Regional and Country-level Analysis

The report offers an exhaustive geographical analysis of the global Aircraft Insurance market, covering important regions, viz, North America, Europe, China, Japan, Southeast Asia, India and Central & South America.
