Abstracts

Arc Trainer is designed to generate force only when the user is in the load-bearing phase of the gait cycle. This generates forces in the legs which balance the loading between the hip and knee joints. The result of this balanced loading design creates less stress on the knee joint and allows higher muscle training effect with lower perceived exertion.

Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the Arc Trainers market in 2020.

COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.

The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among the population, and uncertainty about future.

This report also analyses the impact of Coronavirus COVID-19 on the Arc Trainers industry.

Based on our recent survey, we have several different scenarios about the Arc Trainers YoY growth rate for 2020. The probable scenario is expected to grow by a xx% in 2020 and the revenue will be xx in 2020 from US\$ xx million in 2019. The market size of Arc Trainers will reach xx in 2026, with a CAGR of xx% from 2020 to 2026.

With industry-standard accuracy in analysis and high data integrity, the report makes a brilliant attempt to unveil key opportunities available in the global Arc Trainers market to

help players in achieving a strong market position. Buyers of the report can access verified and reliable market forecasts, including those for the overall size of the global Arc Trainers market in terms of both revenue and volume.

Players, stakeholders, and other participants in the global Arc Trainers market will be able to gain the upper hand as they use the report as a powerful resource.
