Abstracts

Athleisure is a trend in fashion in which clothing designed for workouts and other athletic activities is worn in other settings, such as at the workplace, at school, or at other casual or social occasions.

Rising awareness regarding physical fitness and personal grooming among millennials is expected to be a key driving force.

Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the Athleisure market in 2020.

COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.

The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among the population, and uncertainty about future.

This report also analyses the impact of Coronavirus COVID-19 on the Athleisure industry.

Based on our recent survey, we have several different scenarios about the Athleisure YoY growth rate for 2020. The probable scenario is expected to grow by a xx% in 2020 and the revenue will be xx in 2020 from US\$ 138160 million in 2019. The market size of Athleisure will reach xx in 2026, with a CAGR of xx% from 2020 to 2026.
