Abstracts

Channel Marketing Management Software is the software for managing third-party channel distribution marketing activities. This is a system of methodologies, strategies, software, and web-based capabilities that help a vendor to manage partner relationships. Systems typically include a Content Management System, a partner and customer contact database, and the notion of a partner portal which allows partners to login and interact with a vendor's sales opportunity database and obtain product, pricing, and training information.

Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the Channel Marketing Management Software market in 2020.

COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.

The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among the population, and uncertainty about future.
