Abstracts

The concrete scanning equipment is mainly used to detect the distribution, diameter, trend of reinforcing steel bar and the thickness of concrete cover in the concrete structure of engineering buildings. The concrete scanner can measure the position and distribution of steel bar, the thickness of concrete cover and the diameter of steel bar on the concrete surface. In addition, the concrete scanner can also detect the position of the magnetic and conductive body in the concrete structure, such as cables in the wall, plumbing pipes, etc. , pre-construction detection can effectively avoid the damage of these facilities during construction and reduce the occurrence of accidents. Concrete scanner is an effective tool for construction process monitoring and quality inspection. Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the Concrete Scanning Equipment market in 2020.

COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.

The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among the population, and uncertainty about future.

This report also analyses the impact of Coronavirus COVID-19 on the Concrete Scanning Equipment industry.

Based on our recent survey, we have several different scenarios about the Concrete Scanning Equipment YoY growth rate for 2020. The probable scenario is expected to

grow by a xx% in 2020 and the revenue will be xx in 2020 from US\$ xx million in 2019. The market size of Concrete Scanning Equipment will reach xx in 2026, with a CAGR of xx% from 2020 to 2026.

With industry-standard accuracy in analysis and high data integrity, the report makes a brilliant attempt to unveil key opportunities available in the global Concrete Scanning Equipment market to help players in achieving a strong market position. Buyers of the report can access verified and reliable market forecasts, including those for the overall size of the global Concrete Scanning Equipment market in terms of both revenue and volume.

Players, stakeholders, and other participants in the global Concrete Scanning Equipment market will be able to gain the upper hand as they use the report as a powerful resource. For this version of the report, the segmental analysis focuses on sales (volume), revenue and forecast by each application segment in terms of sales and revenue and forecast by each type segment in terms of revenue for the period 2015-2026.

Production and Pricing Analyses

Readers are provided with deeper production analysis, import and export analysis, and pricing analysis for the global Concrete Scanning Equipment market. As part of production analysis, the report offers accurate statistics and figures for production capacity, production volume by region, and global production and production by each type segment for the period 2015-2026.

In the pricing analysis section of the report, readers are provided with validated statistics and figures for price by manufacturer and price by region for the period 2015-2020 and price by each type segment for the period 2015-2026. The import and export analysis for the global Concrete Scanning Equipment market has been provided based on region.

Regional and Country-level Analysis

The report offers an exhaustive geographical analysis of the global Concrete Scanning Equipment market, covering important regions, viz, North America, Europe, China and Japan. It also covers key countries (regions), viz, U.S., Canada, Germany, France, U.K., Italy, Russia, China, Japan, South Korea, India, Australia, Taiwan, Indonesia, Thailand, Malaysia, Philippines, Vietnam, Mexico, Brazil, Turkey, Saudi Arabia, U.A.E, etc.

The report includes country-wise and region-wise market size for the period 2015-2026. It also includes market size and forecast by each application segment in terms of volume for the period 2015-2026.

Competition Analysis

In the competitive analysis section of the report, leading as well as prominent players of the global Concrete Scanning Equipment market are broadly studied on the basis of key factors. The report offers comprehensive analysis and accurate statistics on sales by the player for the period 2015-2020. It also offers detailed analysis supported by reliable statistics on price and revenue (global level) by player for the period 2015-2020.

On the whole, the report proves to be an effective tool that players can use to gain a competitive edge over their competitors and ensure lasting success in the global Concrete Scanning Equipment market. All of the findings, data, and information provided in the report are validated and revalidated with the help of trustworthy sources. The analysts who have authored the report took a unique and industry-best research and analysis approach for an in-depth study of the global Concrete Scanning Equipment market.

The following manufacturers are covered in this report:

Leica Geosystems

Elcometer

Hilti

US Radar

MALA GPR

GSSI

Humboldt Mfg

Sensors?Software Inc

Beijing Hichance Technology

Concrete Scanning Equipment Breakdown Data by Type

Max Detection Depth

Contents

1 STUDY COVERAGE

- 1.1 Concrete Scanning Equipment Product Introduction
- 1.2 Key Market Segments in This Study
- 1.3 Key Manufacturers Covered: Ranking of Global Top Concrete Scanning Equipment Manufacturers by Revenue in 2019
- 1.4 Market by Type
 - 1.4.1 Global Concrete Scanning Equipment Market Size Growth Rate by Type
 - 1.4.2 Max Detection Depth

List Of Tables

LIST OF TABLES

Table 1. Concrete Scanning Equipment Key Market Segments in This Study

Table 2. Ranking of Global Top Concrete Scanning Equipment Manufacturers by Revenue (US\$ Million) in 2019

Table 3. Global Concrete Scanning Equipment Market Size Growth Rate by Type 2020-2026 (K Units) (Million US\$)

Table 4. Major Manufacturers of Max Detection Depth

List Of Figures
