## **Abstracts**

This market examines the global market for customer service and support applications that enable customer service and support agents to engage customers through their preferred communication channel. It covers a wide range of customer service applications for organizations with customer engagement centers (CECs), ranging from very small (fewer than 20 agents) through average size (50 agents) to very large, and distributed centers (over 10,000 agents). At the heart of a CEC is the need for a CRM application with the customer record (typically including account, contact information, purchase history, service history, and open marketing offers). Its core system function is case management, which can sometimes be referred to as incident management, trouble ticketing or problem resolution. It requires a strong ability to create, split, federate, join, assign and escalate cases, often in a collaborative environment.

Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the Customer Relationship Management (CRM) Customer Engagement Center market in 2020. COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.

The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among the population, and uncertainty about future.
