Abstracts

A Digital business card, or virtual business card, is often shared via email in your contact signature. Instead of mentioning your social details in the body of the email, it's easier to have them all in an e business card at the bottom in the form of a signature. Most virtual business card tools will help you generate a card to add as the signature to your email.

The purpose of a digital business card is simple: to help you connect with more potential clients, partners, and co-workers.

The point of an e business card is to create a single, simple, shareable file with all of your contact details. That way, the recipient has no friction to follow your account on social media or contact you using the details.

Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the Digital Business Card market in 2020.

COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.

The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among the population, and uncertainty about future.

This report also analyses the impact of Coronavirus COVID-19 on the Digital Business Card industry.

Based on our recent survey, we have several different scenarios about the Digital

Business Card YoY growth rate for 2020. The probable scenario is expected to grow by a xx% in 2020 and the revenue will be xx in 2020 from US\$ xx million in 2019. The market size of Digital Business Card will reach xx in 2026, with a CAGR of xx% from 2020 to 2026.
