Abstracts

Dog pad also known as super absorbent pet pad, puppy training pads, pee pee pads, potty pads, or wee wee pads, these are one of the most effective house training and pet hygiene products in the pet care industry. Puppy Pads are constructed with a super absorbent core and plastic film bottom to absorb the messes of dogs, puppies, and beyond.

Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the Dog Pads market in 2020.

COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.

The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among the population, and uncertainty about future.

This report also analyses the impact of Coronavirus COVID-19 on the Dog Pads industry.
