Foam pillow is a pillow made of slow rebound material, which is a pillow that protects and protects the cervical vertebrae of the human body. A travel pillow is a pillow that is designed to be carried while traveling. Some people carry travel pillows for the purpose of making trips on public transit more comfortable, while others carry along a personal pillow to ensure that they have the comfort and support they need while sleeping in a strange place.

Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency.
