This report focus on helicopter Maintenance, Repair and Overhaul (MRO) Market. Helicopter MRO is a fundamental aspect of helicopter operations. It ensures the preservation of rotorcraft in pre-determined conditions of airworthiness in order to guarantee the safety of operations, passengers and crew. The MRO sector is heavily regulated by national and international aviation regulatory bodies with operators and OEMs being required to adhere to stringent regulations and practices in the performance of helicopter MRO work. Companies that conduct such services require approval and certification of facilities and infrastructure by the necessary aviation safety bodies.

The increase in the demand for helicopters will foster the need for MRO services, which in turn will promote the prospects for growth in the global market for helicopter MRO services during the forecast period.
