Abstracts

This report focus on interior finish services, including design and installing services. We use the terms 'interior finishings' or 'interior finishes' to describe those interior space elements that are fixed in place. They are usually attached to other structural elements of the building, like for example to the walls, ceilings, floors, etc. So, interior finishings most of the times are non-structural elements. They have decorative purpose or both decorative and functional.

The prosperity of the real estate market will provide a strong impetus to the interior finishe market.

Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the Interior Finish market in 2020.

COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.

The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among the population, and uncertainty about future.

This report also analyses the impact of Coronavirus COVID-19 on the Interior Finish industry.
