Abstracts

Milk thistle oil is a rich source of antioxidants and flavonolignans (silymarin), which makes it an excellent and natural cure for various illnesses. It is mainly known for its beneficial effects on the liver. It supports its regeneration and creates a natural barrier against such poisons as alcohol, medicine, pesticides or heavy metals. It promotes the production of bile and prevents the creation of gallstones. It is recommended for viral hepatitis, different kinds of addiction and it supports healthy liver function in alcoholism. It also prevents bladder problems.

Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the Milk Thistle Oil market in 2020.

COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.

The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among the population, and uncertainty about future.

This report also analyses the impact of Coronavirus COVID-19 on the Milk Thistle Oil industry.
