## **Abstracts**

Non-leather products are products that are not made up of animal leather. Non-leather materials are artificial leather, leatherette, vegan leather, PU leather, and pleather. Non-leather products are cruelty-free products. They are cheaper than the original leather products. They are processed with different chemicals using various industrial processes. Non-leather materials include synthetic leather and vegan leather, which is made up of backcloth, cork, recycled ultra-suede, glazed cotton, paper, PET, and polyurethane.

Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the Non-leather Products market in 2020.

COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.

The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among the population, and uncertainty about future.

This report also analyses the impact of Coronavirus COVID-19 on the Non-leather Products industry.
