An online classroom is an environment created through use of a learning management system that allows students and teacher to connect either synchronously (real-time, with teacher and students meeting at the same time or asynchronously with interaction between teacher and students occurring intermittently with a time delay; teacher students are generally separated by location.
Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the Online Classroom market in 2020.

COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.

The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among the population, and uncertainty about future.

This report also analyses the impact of Coronavirus COVID-19 on the Online Classroom industry.

Based on our recent survey, we have several different scenarios about the Online Classroom YoY growth rate for 2020. The probable scenario is expected to grow by a
