Abstracts

Rail freight transportation is used for the movement of heavy goods, such as coal, metals, and oils. Often, rail freight service providers go beyond logistics and provide value-added services, such as loading and unloading, documentation services, and packaging. They also provide strategic and operational value to many shippers worldwide. Freight service providers are improving logistics services by introducing innovative supply chain management.

Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the Tank Cars Leasing market in 2020.

COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.

The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among the population, and uncertainty about future.

This report also analyses the impact of Coronavirus COVID-19 on the Tank Cars Leasing industry.
