Abstracts

APET (Amorphous-polyethylene terephthalate) film is thermoplastic film which is produced by the extrusion processing of Polyethylene Terephthalate (APET) copolymer, a kind of thermoplastic polyester. APET Film is one kind of amorphous thermal plastics, which is composed of carbon, hydrogen and oxygen elements. It will not produce toxic gases in the process of APET incineration. Instead, the product of complete combustion includes only non-toxic steam and carbon dioxide gases.

MEA and China lead the production of APET for the time being. The two regions contributed about 50.09% production in 2016. Octal, Far Eastern New Century, KI?ckner Pentaplast, Nan Ya Plastics, etc. are leaders in the APET industry. In fact, many manufacturer engaged in the production of APET have extended their industry chain actively. From the raw materials to the downstream products, many companies have developed related business in order to promote their business development. Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the APET Film 3900 market in 2020.

COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.

The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among the population, and uncertainty about future.

This report also analyses the impact of Coronavirus COVID-19 on the APET Film 3900 industry.

Based on our recent survey, we have several different scenarios about the APET Film

3900 YoY growth rate for 2020. The probable scenario is expected to grow by a xx% in 2020 and the revenue will be xx in 2020 from US\$ 5221 million in 2019. The market size of APET Film 3900 will reach xx in 2026, with a CAGR of xx% from 2020 to 2026.

With industry-standard accuracy in analysis and high data integrity, the report makes a brilliant attempt to unveil key opportunities available in the global APET Film market to help players in achieving a strong market position. Buyers of the report can access verified and reliable market forecasts, including those for the overall size of the global APET Film market in terms of both revenue and volume.

Players, stakeholders, and other participants in the global APET Film market will be able to gain the upper hand as they use the report as a powerful resource. For this version of the report, the segmental analysis focuses on sales (volume), revenue and forecast by each application segment in terms of sales and revenue and forecast by each type segment in terms of revenue for the period 2015-2026.

Sales and Pricing Analyses

Readers are provided with deeper sales analysis and pricing analysis for the global APET Film market. As part of sales analysis, the report offers accurate statistics and figures for sales and revenue by region, by each type segment for the period 2015-2026.

In the pricing analysis section of the report, readers are provided with validated statistics and figures for the price by players and price by region for the period 2015-2020 and price by each type segment for the period 2015-2020.

Regional and Country-level Analysis

The report offers an exhaustive geographical analysis of the global APET Film market, covering important regions, viz, North America, Europe, China and Japan. It also covers key countries (regions), viz, U.S., Canada, Germany, France, U.K., Italy, Russia, China, Japan, South Korea, India, Australia, Taiwan, Indonesia, Thailand, Malaysia, Philippines, Vietnam, Mexico, Brazil, Turkey, Saudi Arabia, UAE, etc.

The report includes country-wise and region-wise market size for the period 2015-2026. It also includes market size and forecast by each application segment in terms of sales for the period 2015-2026.

Competition Analysis

In the competitive analysis section of the report, leading as well as prominent players of the global APET Film market are broadly studied on the basis of key factors. The report offers comprehensive analysis and accurate statistics on sales by the player for the

period 2015-2020. It also offers detailed analysis supported by reliable statistics on price and revenue (global level) by player for the period 2015-2020.

On the whole, the report proves to be an effective tool that players can use to gain a competitive edge over their competitors and ensure lasting success in the global APET Film market. All of the findings, data, and information provided in the report are validated and revalidated with the help of trustworthy sources. The analysts who have authored the report took a unique and industry-best research and analysis approach for an in-depth study of the global APET Film market.

The following manufacturers are covered in this report:

OCTAL

KI?ckner Pentaplast

Shinkong Synthetic Fibers

Toray

Retal
