Abstracts

This report mainly covers the drawing pen, paints and stains, craft tools, and other product type.

Overall, the arts and crafts industry continues to trend positively, as consumers continue to seek out do-it-yourself (“DIY”) home projects. In general, it seems consumers have an ongoing interest in crafting. However, the industry remains very competitive, with traditional brick-and-mortar arts and crafts stores facing competition from big box retailers such as Wal-Mart and Target, as well as online players such as etsy.com. The increased competition had caused many retailers to increase promotional activity to drive sales. While lower price points remain important for many consumers, many retailers have been recently focused on improving gross margin, and have been more strategic with the type and level of discounts offered.
