Abstracts

Asparagus is a spring vegetable, a flowering perennial plant species in the genus *Asparagus*. It was once classified in the lily family, like the related *Allium* species, onions and garlic, but the Liliaceae have been split and the onion-like plants are now in the family Amaryllidaceae and *Asparagus* in the Asparagaceae. Sources differ as to the native range of *Asparagus officinalis*, but generally include most of Europe and western temperate Asia. It is widely cultivated as a vegetable crop.

The consumption is 245 K MT in 2017, Northeast is the largest consumption region and market share is 39.23%, the south is the smallest region and the market share is 18%. The price has been declining continuously; the average price is about 2124 USD Per MT in 2017. The gross margin has the similar trend with the price. The gross margin is about 17.58% in 2017.

Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the Asparagus 3900 market in 2020.

COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.

The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among the population, and uncertainty about future.

This report also analyses the impact of Coronavirus COVID-19 on the Asparagus 3900 industry.

Based on our recent survey, we have several different scenarios about the Asparagus 3900 YoY growth rate for 2020. The probable scenario is expected to grow by a xx% in

2020 and the revenue will be xx in 2020 from US\$ xx million in 2019. The market size of Asparagus 3900 will reach xx in 2026, with a CAGR of xx% from 2020 to 2026.

With industry-standard accuracy in analysis and high data integrity, the report makes a brilliant attempt to unveil key opportunities available in the global Asparagus market to help players in achieving a strong market position. Buyers of the report can access verified and reliable market forecasts, including those for the overall size of the global Asparagus market in terms of both revenue and volume.

Players, stakeholders, and other participants in the global Asparagus market will be able to gain the upper hand as they use the report as a powerful resource. For this version of the report, the segmental analysis focuses on sales (volume), revenue and forecast by each application segment in terms of sales and revenue and forecast by each type segment in terms of revenue for the period 2015-2026.
