Abstracts

Auto Beauty refers to the various parts of different materials for the automotive maintenance required conditions, using beauty care products and construction technology to care and maintenance for cars.

The Auto Beauty industry including waxes, polishes, compounds, paints, cleaners, buffing pads and etc. And it is not concentrated, there are more than hundreds manufacturers in the world, and high-end products mainly come from North America and Europe.

In 2015, amount of Auto Beauty product consumed in 4S Stores took 42%. Auto Beauty Shops took 35% of global Auto Beauty. Personal Purchase took 11%.

Global Auto Beauty is concentrated in USA, Europe, China and Japan. In 2015, USA Auto beauty consumption value took about 26%. Europe China and Japan separately took 40%, 7% and 11% of global Auto Beauty. Asia Pacific is expected to retain the higher growth rate during the next five years due to strong growth in car care industry. The most notable features of Chinese auto beauty market are the average small scale of enterprises, lack of funds and low brand awareness. Blind operations are adopted by domestic auto beauty enterprises. Chinese auto beauty market possesses uneven scales due to low barriers to operation and lack of regulations. Small-scale and low-end stores on roadsides continue to run with low standards.

Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the Auto Beauty market in 2020.

COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.

The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among the population, and uncertainty about future.
