This report studies the global Beryllium market status and forecast, categorizes the global Beryllium market size (value & volume) by manufacturers, type, application, and region. This report focuses on the top manufacturers in North America, Europe, Japan, China, India, Southeast Asia and other regions (Central & South America, and Middle East & Africa).

Beryllium is the lightest alkaline earth metal with atomic number 4. It is relatively rare in the universe. In this report, we just statistic pure beryllium metal.

The Beryllium industry concentration is relatively high; there are more very few manufacturers in the world, and high-end products mainly from America. In the world wide, American has a long history and unshakable status in this industry, like Materion Corp. In Kazakhstan, it is Ulba Metallurgical Plant, which leads the technology development. In China, the manufactures are located in Xinjiang and Hunan province. The Beryllium price is easily affected by the downstream demand, especially from Military & aerospace and Nuclear and energy research fields. And this industry is affected by the economy and political policy of the world, so it's important to put an eye to economic indexes and leaders' prefer.

The global Beryllium market is valued at 67 million US\$ in 2017 and will reach 93 million US\$ by the end of 2025, growing at a CAGR of 4.7% during 2018-2025.
