Abstracts

Global Biofuels Industry 2015 Market Research Report is a professional and in-depth study on the current state of the biodiesel industry.

Biofuels is a renewable fuel that can be manufactured from corn, wheat, vegetable oils, animal fats, or recycled restaurant grease which can be used as transportation fuel, it is a cleaner-burning alternative.

The market of biodiesel is quite separated. In 2015, the market share of the five largest companies accounted for 20.42% of global market, which are REG, Diester Industries, Neste Oil Rotterdam, ADM and Louis Dreyfus. The global production of biodiesel reached 27768 K MT in 2015. EU is the biggest production base and consumption area of biodiesel, followed by USA, South America and China. Though enjoying a high share in fuel market, in many European countries, the biodiesel industry are threatened by overcapacity. In China, the market of biodiesel fuel is also in a tough situation, since governmental supports from local authorities are very limited.

USA is the biggest producer and consumer of bioethanol, the production accounted for 57.65% of global production in 2015, followed by South America, accounted for 27.62%. The leader players of bioethanol are Poet, ADM, Valero, Green Plains and Flint Hills Resource. Poet is the leader of bioethanol of the world, accounted for 5.00% of the total amount.
