## Abstracts

The built-in hot tub is a unit that can be completely or partially set into the ground or placed on its surface. It must be connected to the water and electrical systems of the house or building. Once installed, it can hardly be moved.

Geographically, USA was the largest market in the world, which took about 52.34% of the global consumption volume in 2015. The UK rank as No.2 by shared 7.55% of global total consumption volume, France shared 7.26%.

The Built-in Hot-tubs market concentration degree is relatively lower. The manufacturing bases scatter around the world in terms of geography; the global leading players in this market are Jacuzzi, Masco, Aquavia, Cal Spas and Jaquar which accounts for about 33.8% of total sales value in 2015.

About the difference of product types, there are small hot tubs, medium hot tubs and swim spas in the market. The main type is small hot tubs, which accounts for above 50%.

Despite the presence of competition problems, due to the global recovery trend is clear, investors are still optimistic about this area; the future will still have some new investment enter the field. In the next five years, the sales volume will keep slow decrease and the market revenue scale is forecasted to be reduced because of price downturn.

Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency.
