Abstracts

Canned motor pump is a kind of sealless pumps. Canned Motor Pump is a centrifugal pump with hermetically sealed electric motor mounted on single shaft thus eliminating the requirement of mechanical seal or other sealing device. Entire rotating assembly is immersed in the liquid, and motor stator and rotor are isolated from the pumped liquid with corrosion resistant, non-magnetic liner and sleeve. A part of the pumped liquid is by-passed through the motor, for cooling of motor and lubricating the bearing.

The canned motor pump industry is highly concentrated, which is due to the high barriers, including technical barriers and supply chain. Also, since the gross profit in pump industry is quite easy to calculate, manufacturers found it hard to lift price unless product quality has been lift to a large extent. The major manufacturers in this industry are Teikoku, Nikkiso, Kirloskar Brothers, HERMETIC-Pumpen, Dynamic Pumps, OPTIMEX, Shinhoo, Zhejiang Dayuan, Shanghai East Pump, Dalian Huanyou, Chemmp, Shigme, Hayward Tyler, Curtiss-Wright, Harbin Electric Corporation.
