Car Wash System is a facility used to clean the exterior and, in some cases, the interior of motor vehicles. Car washes can be self-serve, fully automated.

The Car Wash System industry is not highly concentrated, and high-end products mainly come from North America and Western Europe.

In the world wide, major manufactures mainly are WashTec, Daifuku, Otto Christ, Istobal, Ryko, MK Seiko, Tommy Car Wash, Takeuchi, Autobase, Carnurse, Belanger, Zonyi, Haitian, Siang Sheng, Broadway Equipment, Risense, Tammermatic, Washworld, PDQ Manufacturing, PECO, KXM, Coleman Hanna, AUTOEQUIP, D & S, Zhongli and etc.

In 2015, China is the largest consumer of Car Wash System and is expected to retain the higher growth rate, due to strong growth in downstream industry. North America, Europe and China have witnessed a major chunk of the production and consumption of Car Wash System in the world. Actually, that is why manufacturers have several plants, usually close to aimed demand market.

All manufactures in the world are committed to the improvement of product. These two years, some of Chinese manufactures can almost catch up with the world's leading technology too. Most technologies are developed by the manufacturers instead of importing from other companies.

The import and export business of this industry is not frequent. The main reason lies in that many international manufacturers expand their business through building factories or investments in targeted markets. Also, many major players have built up plants in developing countries, like China, India and Thailand.

Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency.
