Abstracts

The chipotle flavour gained popularity as a result of the well-known fast-food restaurant Chipotle Mexican Grill. The demand for chipotle salt is expected to rise due to its distinct smoky, fiery, and sweet flavour, which complements a variety of recipes such as grills, salads, steak, dips, potato chips, and soups, among others.

According to QYResearch's new survey, global Chipotle Salt market is projected to reach US\$ 3157.8 million in 2029, increasing from US\$ 2236 million in 2022, with the CAGR of 5.1% during the period of 2023 to 2029. Influencing issues, such as economy environments, COVID-19 and Russia-Ukraine War, have led to great market fluctuations in the past few years and are considered comprehensively in the whole Chipotle Salt market research.

Food additives promote the development of the food industry and have become an indispensable and important part of the modern food industry. There are many kinds of food additives. In China, there are 23 types of food additives allowed to be used, totaling more than 2,400 kinds of food additives. In Europe, there are more than 4,000 kinds of food additives allowed to be used. The U.S., EU and Japan are the major markets for food additives worldwide. According to our research, the global food preservatives market is approximately USD 34 in 2022. According to the China Food Additives and Ingredients Association, the total output of major varieties of food additives in China in 2021 was 14,840,700 tons, with sales of 139,923 million yuan.
