Abstracts

This report covers Cold Rolled Silicon Steel in Global market, we focus on price, sales, and revenue of each type from different companies. Although the global steel market is depressed for many year, Cold Rolled Silicon Steel because of its low specific loss of iron, especially for Cold Rolled Grain-Oriented Silicon Steel, have been widely used in many fields, such as Transformer, Electric motors and Generator. Among all the regions, Asia-Pacific occupies nearly 70% of the whole world's production and consumption. We estimate the market will grow slightly but the production will not change a lot as the result of depressed steel industry.
