Abstracts

A commercial oven is a kitchen appliance used for heating and baking foods in a professional setting. Establishments such as restaurants, bakeries, and cafeterias often use commercial ovens. This is because professional ovens typically have the capacity and power to handle large amounts of different kinds of food in a timely manner. There are several types of commercial ovens that may accommodate different needs, such as deck, combination and pizza ovens. They may be gas, wood or electric-powered and usually cook by convection.

Currently, there are many producing companies in the world. The main market players are RATIONAL, WERNER & PFLEIDERER, Wiesheu, Eloma, Convothem, MIWE, Middleby and so on. Europe is the largest sales regions of Commercial Ovens, with a sales value market share nearly 33.23% in 2016.

Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the Commercial Ovens 3900 market in 2020.

COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.

The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among the population, and uncertainty about future.
