Abstracts

Compression wear and shapewear garments are skin-tight clothing which apply pressure to specific parts of the body. Through the application of compression to underlying veins, the speed of blood flow increases and the rate of oxygen delivery to muscles are increased.

In recent years, the demand for the exercise has been growing and more people care for counting the shape. This trend has made the demand of Compression Wear and Shapewear become larger and this trend can be anticipated to fuel the market growth during the forecast period.

Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the Compression Wear and Shapewear 3900 market in 2020.

COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.

The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among the population, and uncertainty about future.

This report also analyses the impact of Coronavirus COVID-19 on the Compression Wear and Shapewear 3900 industry.

Based on our recent survey, we have several different scenarios about the Compression Wear and Shapewear 3900 YoY growth rate for 2020. The probable scenario is expected to grow by a xx% in 2020 and the revenue will be xx in 2020 from

US\$ 4526.7 million in 2019. The market size of Compression Wear and Shapewear 3900 will reach xx in 2026, with a CAGR of xx% from 2020 to 2026. With industry-standard accuracy in analysis and high data integrity, the report makes a brilliant attempt to unveil key opportunities available in the global Compression Wear and Shapewear market to help players in achieving a strong market position. Buyers of the report can access verified and reliable market forecasts, including those for the overall size of the global Compression Wear and Shapewear market in terms of both revenue and volume.

Players, stakeholders, and other participants in the global Compression Wear and Shapewear market will be able to gain the upper hand as they use the report as a powerful resource. For this version of the report, the segmental analysis focuses on sales (volume), revenue and forecast by each application segment in terms of sales and revenue and forecast by each type segment in terms of revenue for the period 2015-2026.

Sales and Pricing Analyses

Readers are provided with deeper sales analysis and pricing analysis for the global Compression Wear and Shapewear market. As part of sales analysis, the report offers accurate statistics and figures for sales and revenue by region, by each type segment for the period 2015-2026.

In the pricing analysis section of the report, readers are provided with validated statistics and figures for the price by players and price by region for the period 2015-2020 and price by each type segment for the period 2015-2020.

Regional and Country-level Analysis

The report offers an exhaustive geographical analysis of the global Compression Wear and Shapewear market, covering important regions, viz, North America, Europe, China and Japan.
