This report focuses on the top manufacturers in North America, Europe, Japan, China, India, Southeast Asia and other regions (Central & South America, and Middle East & Africa).

Decabromodiphenyl Ethane (DBDPE) is a wide-ranged, white powdered and additive type fire retardant widely used. It has very good thermal stability, high bromine content and it exhibits good UV resistance. It has a lower transudation as compared to other fire retardant of bromine series, so it is especially suitable for slap-up materials used to produce computer, electrograph, telephone, manifold, household electrical appliances etc.

North America is the largest consumption of Decabromodiphenyl Ethane, with a sales revenue market share nearly 28.64% in 2015.

The second place is China; following North America with the sales revenue market share over 21.26%. Europe is another important consumption market of Decabromodiphenyl Ethane.

The global Decabromodiphenyl Ethane market is valued at 770 million US\$ in 2017 and will reach 1350 million US\$ by the end of 2025, growing at a CAGR of 7.2% during 2018-2025.
