## Abstracts

This report studies the global Deferiprone market status and forecast, categorizes the global Deferiprone market size (value & volume) by manufacturers, type, application, and region. This report focuses on the top manufacturers in North America, Europe, Japan, China, India, Southeast Asia and other regions (Central & South America, and Middle East & Africa).

Nerve damages can be caused by either blunt trauma, such as an impact from a fall or from traction injuries from motor vehicle accidents, or sharp trauma, such as direct cuts from a knife. Injury to a nerve can stop signals to and from the brain. Surgical nerve repair involves the exploration of the injured nerve and the removal of injured tissue from the nerve endings. Nerve repair and regeneration product are used through surgical interventions to restore normal function in nerves.

The major players in the global nerve repair and regeneration market are Stryker, Axogen, Integra, Polyganics and etc. and the top three players accounts about 94% of the total revenue in 2016.

On the basis of geography, the global nerve repair and regeneration market can be segmented into USA, Europe and Rest of the World. Due to a large patient population and increase in the incidence of nerve injuries, North America is deemed to be the key contributor towards the growth of the market.

Based on product, the nerve repair and regeneration market can be classified into Nerve Conduit (volume market share 60% in 2016), Nerve Wrap (volume market share 39% in 2016), Nerve Graft (volume market share 2% in 2016) and others.

The global Deferiprone market is valued at 130 million US\$ in 2017 and will reach 750 million US\$ by the end of 2025, growing at a CAGR of 24.3% during 2018-2025.
